EDUCATION

Indian Institute of Information Technology, Kottayam, Kerala (IIITK)

2023 - 2027

B. Tech Computer Science And Engineering | CGPA: 9.95

COURSEWORK

Data Structures & Algorithms, Operating Systems, Database Management Systems, Computer Networks, Computer Organization & Architecture, Object-Oriented Programming, System Design

WORK EXPERIENCE

[Ankbyte](#)

Mexico

AI Engineering Intern (Backend Systems)

Feb 2026 - Mar 2026

- Replaced a manual form-based intake system with authentication, file upload, and knowledge-base integration using Better Auth, PostgreSQL, Prisma, and Cloudflare R2, reducing onboarding data entry by ~60%.

[X-HUG.ai](#)

Texas, US

Front End Web Development Intern

Mar 2025 - July 2025

- Redesigned the website of X-HUG and Ankbyte fixing cross-device layout issues and improving UI consistency by 40%.
- Improved site speed and reliability, which led to a 2x increase in client interaction.

[Eldroga Life Sciences](#)

Chennai, Tamil Nadu, IN

Freelance Web Developer

June 2025

- Solved the problem of CKD-specific diet chart inaccessibility by building a web app that generated personalised diet plans based on CKD stage, age, and medical conditions.
- Reduced physicians' manual diet planning effort by 70% through an exportable chart feature, validated across 20+ CKD patient profiles spanning 5 disease stages and 3 age groups.

PROJECTS

[ChainVerify](#) | A Digital Bill and Receipt Verification System | [\(Github\)](#)

March 2026

Tech Stack: Python, FastAPI, Next.js, TypeScript, Docker, Redis, PostgreSQL, Nginx, Cloudflare R2, WebSockets

- Engineered a custom blockchain engine processing 100+ documents/batch with Merkle tree construction and SHA-256 fingerprinting achieving 100% tamper-proof document integrity at the storage layer.
- Designed an end-to-end verification pipeline with QR-based receipt verification, real-time transaction monitoring using WebSockets, rate limiting, caching via Redis and activity logging reducing fraudulent document acceptance to 0%.

[TransitFlow](#) | Predictive Delay & Network Bottleneck Analysis | [\(Github\)](#)

Feb 2026

Tech Stack: R, dplyr, tidyr, lubridate, caret, randomForest, e1071, keras, tensorflow, igraph, PCA, K-Means, DBSCAN, LSTM

- Built an end-to-end ML data pipeline processing 2,000+ records reducing missing value rate to 0% via IQR-based imputation and normalization, cutting pre-processing time by 40%.
- Applied PCA, K-Means, and DBSCAN to identify high-delay clusters and trained classification models (Random Forest, SVM, Logistic Regression) achieving 75%+ cross-validated accuracy in predicting route delays.

[CodeKraft](#) | AI Powered Web App Builder | [\(Github\)](#)

Jan 2026

Tech Stack: Next.js, TypeScript, Docker, Prisma, PostgreSQL, Inngest, Google Gemini API, E2B Sandboxes, Clerk

- Built an AI-driven web application that converts user instructions into fully functional Next.js applications, generating code, managing dependencies and running projects inside isolated sandbox environments reducing manual efforts by 85%.
- Built a chat based project workflow with complete message history, versioned code fragments, live previews, and incremental updates, allowing users to continuously modify their applications improving development speed by 60%
- Implemented secure authentication, credit based rate limiting, usage tracking, and payment enabled plan upgrades.

SKILLS

Languages : C, C++, Java, Python, JavaScript, TypeScript

Technologies : Node.js, Express.js, React.js, Next.js, Tailwind CSS, REST APIs, WebSockets, JWT, Better Auth, Nginx, Redis

Databases & Storage : MySQL, MongoDB, PostgreSQL, Prisma, Cloudflare R2

Platforms & Tools : Docker, Kubernetes, Linux, Git, GitHub, Jest, Supertest, GitHub Actions, AWS (S3, EC2)

ACHIEVEMENTS AND CERTIFICATIONS

- Open Source Contributor: GirlScript Summer of Code 2025 ([View Certificate](#)), Social Summer of Code 2025 ([View Certificate](#)); 10+ PRs merged and contributed to AI-integrated MERN apps.
- All India Rank 2 in ISC 2023(99.5%)
- Machine Learning Foundations-Amazon (AWS Educate)-[View Badge](#)

July 2025
